

Jefferson County Personnel Board
Birmingham, Alabama

Stephen E. Solberg, Senior Associate and CAD Manager of Coffeen Fricke & Associates, Inc., is actively involved in the design, testing, and commissioning of sound reinforcement and audio-visual systems. As CAD Manager, he maintains and oversees drafting practices and products for use in all projects. He is also involved in the testing and evaluation of newly designed or updated audio and audio-visual products used in CFA designs.

Prior to joining the firm full time in 2001, Stephen was an intern with CFA and worked as a sound contractor with Mid States Audio in Sioux Falls, South Dakota, where he was part of the installation team for the Alerus Center in Grand Forks, North Dakota.

Stephen received a Bachelor of Science degree in Physics from the University of South Dakota in 2001. His studies included an emphasis in acoustics and research projects with Dr. Christina Keller of USD and Dr. Gabriel Weinreich of the University of Michigan.

Stephen is an Associate Member of the Acoustical Society of America.
